

## EZConnect™ Cable Harness

### Fast Turnaround Customizations

EZConnect Cable Harnesses are designed to be compatible with a variety of Airgain's external antennas featuring the versatile EZConnect configuration. Customizations are available made-to-order from a USA factory for quick delivery right to your door.

#### FEATURES

- Seamless connection to CENTURION™ 5G and 4G, MULTIMAX™ 5G and 4G, and M2MAX® 4G antennas with EZConnect configuration
- Up to 9 cables supporting combinations of Cellular, Wi-Fi, Bluetooth, and GNSS technologies
- Made with low loss, flexible LMR-195 outdoor rated coax cable

#### ADVANTAGES

- Includes mesh around all cables and heat shrink labels on each side
- Assortment of connectors are available for connecting to virtually any vehicular router or modem
- 1 week lead time and no minimum order quantity for custom cable length and router side connectors

EZConnect Antenna with LMR-100 cables	EZConnect Cable Harness with LMR-195 cables
Cell Connectors: SMA Male	Cell Connectors: SMA Female
Wi-Fi Connectors: SMA Female	Wi-Fi Connectors: SMA Male
GNSS Connector: FME Female	GNSS Connector: FME Male

The EZConnect Antenna has 1-foot cables with standard connectors for seamlessly connecting to the EZConnect Cable Harness.
