

# VenU<sup>®</sup>

## Omnidirectional Panel Antenna

3.3~4.2GHZ | 4X4 | 4DBI | CBRS Omni Antenna | 4 Ports | N Jack

## INSTALLATION INSTRUCTIONS

# VenU® PCTHP-CBRS-4-NF

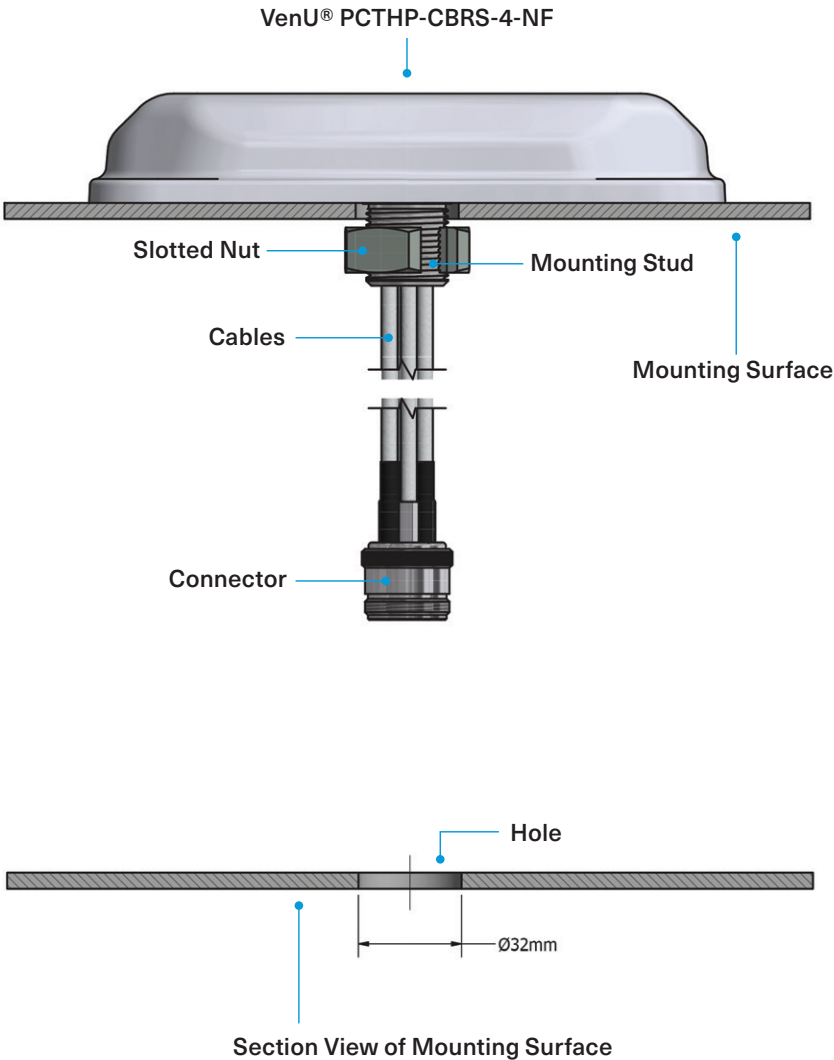

---

### **Stud Mount (Typical Installation)**

1. Determine antenna installation location. Ensure that the mounting surface is as flat as possible.
2. Cut/drill holes through mounting surface sized and positioned as shown in the schematic.
3. Clean mounting surface and bottom of antenna.
4. Feed cables through hole and route to desired location.
5. Position antenna onto mounting surface. Mounting stud shall be located in the hole.
6. On bottom side of mounting surface slide slotted nut around cables and assemble to mounting stud.
7. Four additional mounting holes are provided in each corner for extra support if required.
