

Magnetic Mount Solution for GPSD4/SHKG4 Dual Sharkee SAB-333

PANORAMA ANTENNAS

SAB-333

- Rugged Magnetic Mount Adapter
- For Temporary Mounting
- Suitable for Ford Explorer

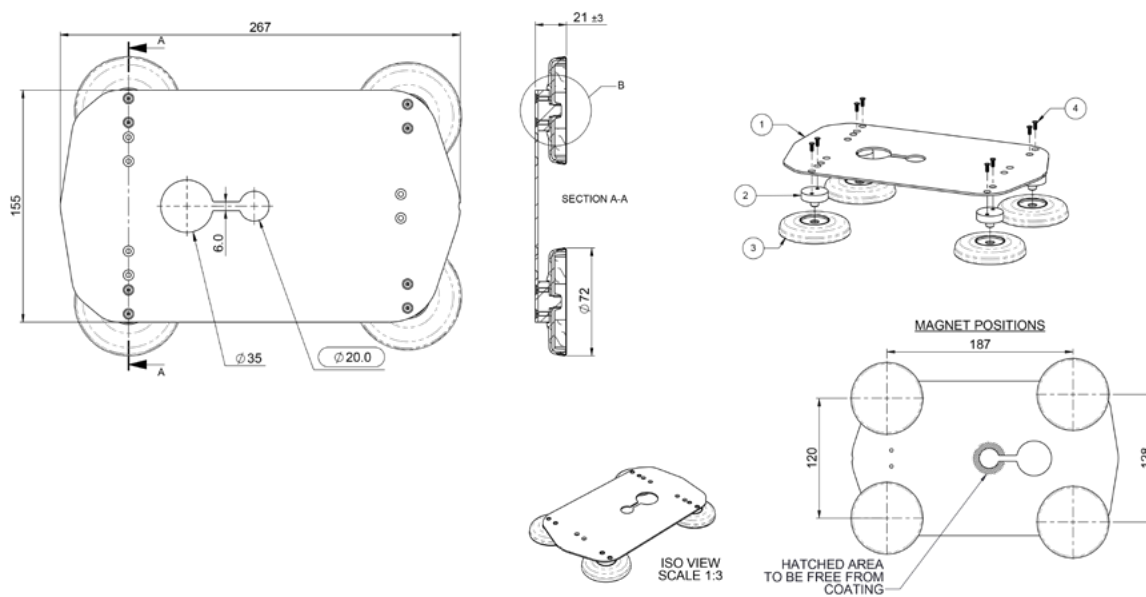

For use with the GPSD4/SHKG4 range of Dual Sharkee 4x4 MiMo antennas, the SAB-333 provides a magnetic mount solution for antenna trials and drive testing.

Using four heavy duty magnets fitted to a stainless steel metal plate, this provides a simple and quick solution that allows the antenna to be fitted on the vehicle roof in order to evaluate the antenna's performance without drilling any holes.

The magnets are spaced to allow fitment to the roof ribs on a Ford Explorer.
