

FINB

Sharkfin Antenna Base

05/05/2016 v.1

FINB

OEM shark fin styling
Panel mount base for VHF or UHF whip

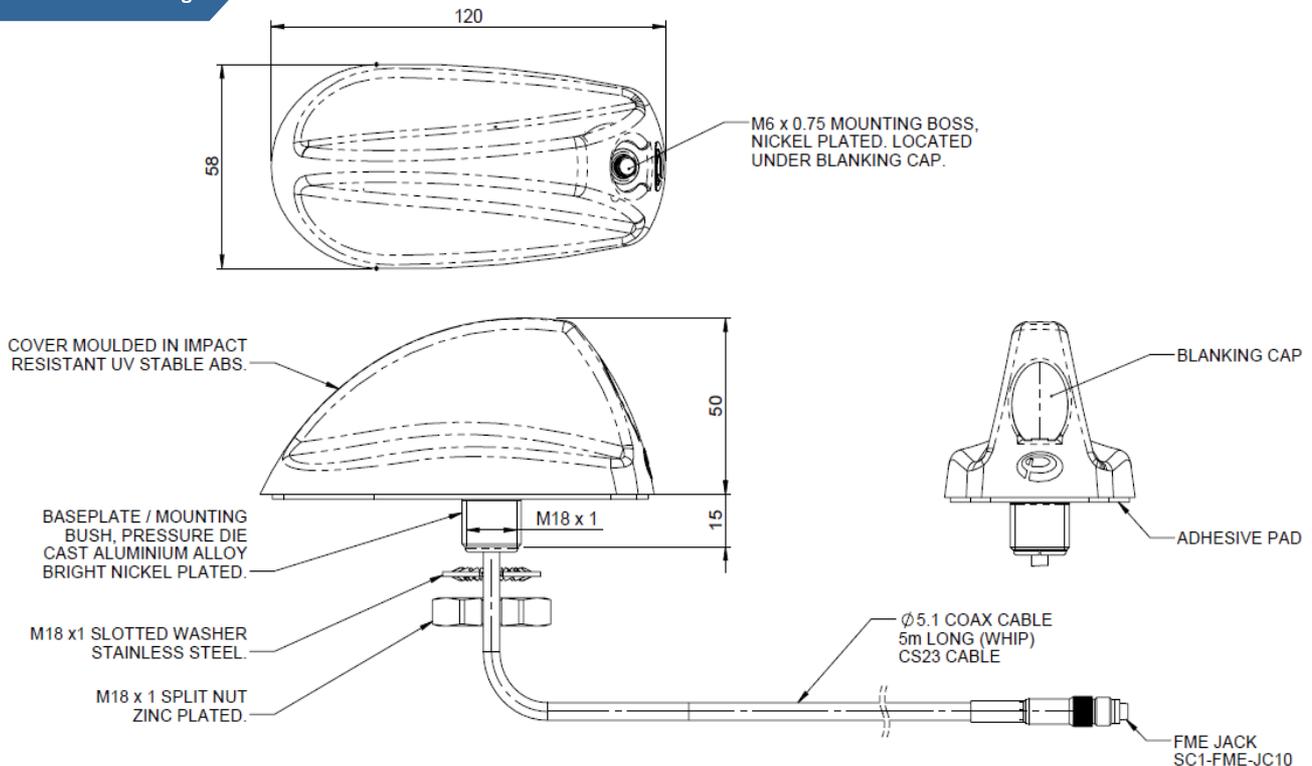

The FINB range offers a panel mount base with discreet sharkfin styling and a whip mounting position designed to accept a large range of Panorama Antennas' single band and multi-band whips.

The FINB is easy to install with an acrylic adhesive sealing pad which fixtures the antenna during installation and seals the antenna mounting location during use. Supplied with an integrated 5m (17') or 6m (20') low loss coax cable the FINB can be mounted through a single 19mm (3/4") hole.

The FINB is suitable for the public safety (covert and discreet), industrial and transportation sectors, where a cost effective, efficient and robust antenna is essential to the application.
