

SAB-224

Magnetic Mount Solution
for Trials and Drive-Testing

PANORAMA  ANTENNAS

SAB-224

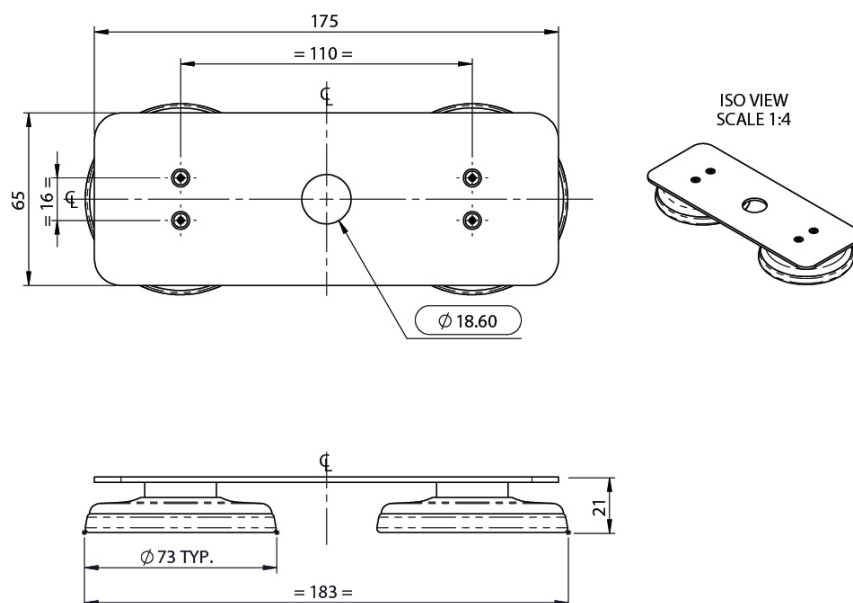

For use with the GPSD/GPSDC/FINDC range of SharkFin style antennas, the SAB-224 provides a magnetic mount solution for antenna trials and drive-testing.

Using two heavy duty magnets fitted to an aluminium alloy plate, this is a very easy, simple and quick solution that can be fitted anywhere on the vehicle to evaluate the antennas performance without drilling any holes.

NOTE – this solution does not offer a suitable ground-plane if using a VHF or UHF whip as part of the antenna configuration.

Technical Drawing

Part No.

SAB-224

Mechanical Data

Length (mm)	175mm (6.9")
Width (mm)	65mm (2.55")
Clearance (mm)	21mm (0.82")
Max panel thickness/ridge height (mm)	6.5mm (0.25")
Fixing	M3 x 8 long, pozi drive stainless steel screws
Material	Aluminium Alloy
Colour	Natural Finish
